

# BUGSENG is HIRING

BUGSENG is an innovative high-tech company that produces a new generation of tools for software verification. BUGSENG is based in Italy, with offices in Parma, Castel Bolognese, and Pisa. BUGSENG sells its tools and services to companies that develop safety- and mission-critical systems (mainly in the automotive, aviation, railways and medical sectors). BUGSENG also provides a range of technical training and consulting services.

BUGSENG is currently looking for highly-talented people with a strong background in computer science and engineering, who would like to start their professional career joining a dynamic, challenging, and stimulating organization.

Required skills:

- Sound understanding of programming languages and compilers
- A good knowledge of C and C++ programming languages
- Aptitude to develop safety- and mission-critical software
- Positive problem solving predisposition
- Great attention to detail
- Fluency in English (fluency in Italian is *not* a requirement)
- Ability to effectively communicate with technical and non-technical colleagues and customers in a concise and understandable way

If you would like to apply, email us at [jobs@bugseng.com](mailto:jobs@bugseng.com) to let us know how you believe you can make a difference, and include your CV/resume.

BUGSENG is an equal opportunities employer.

The logo for BugSeng features the word "bug" in a bold, red, lowercase sans-serif font, followed by a stylized "S" inside a grey circle, and the word "eng" in a bold, red, lowercase sans-serif font.

**no shortcuts,  
no compromises,  
no excuses:  
software verification **done right****
